

Carinya

A place to be me!

Community Participation

At Carinya, community participation means feeling connected, confident, and included.

We support each person to explore interests, build skills, and take part in meaningful activities — whether it's joining local events, discovering new hobbies, or simply enjoying time out in the community. With a friendly, person-centred approach, we create opportunities that foster independence, joy, and genuine belonging.

Together, we build connections that enrich lives — one smile, one outing, and one shared experience at a time.

Carinya is a place to be me!
